### International Programs

The International Programs Office is responsible for leadership and coordination of international study abroad programs conducted by California State University, Fresno. The office is designed to assist faculty and administrators in developing and strengthening international education efforts; disseminate information about international study opportunities; encourage students to enroll in international study programs; award limited numbers of tuition waivers to international students coming to study in Fresno; and serve as an information center for Fulbright awards and other sources of support for study abroad.

An advisory council works with the director to assist in this task. A resource center, maintained in the International Programs Office, provides international education materials for faculty, staff, and students, while a newsletter, *Horizons International*, reports on latest developments.

The university, in its *Vision for the 21st Century: A Plan for Excellence*, set a goal to have 10 percent of

students participating in the study abroad programs.

Several “semester abroad” programs allow students to complete part of their studies in other countries:

- The London Semester
- The South Pacific Semester

In addition, students have a wide range of study-abroad opportunities through the CSU International Programs and through the University Studies Abroad Consortium. (See *International Programs* under the Special Programs section on pages 462-464.)

In its determination to enhance global understanding, California State University, Fresno encourages international academic exchange and cooperation. The university also has partnerships with a number of universities around the globe.
