Total Units in Major 76

**Pre-requisite courses for Fresno State Physical Therapy Graduate Program

The B.S. degree requires a minimum of 121 units. Courses listed in both the IHRS major and on the approved GE list may be used to meet subject requirements for both purposes, but may be counted only once for units toward the degree. The Pre-PT option is a heavy science major with several lect/lab courses. It is recommended that a student does not overload on units in any given semester as it may result in lower competitive GPA's which could negatively impact a student's chances of getting into a graduate program.

The Fresno State Physical Therapy Graduate Program uses 3 key criterias for admission: 1. Interview Score 2. Graduate Record Exam (GRE) Scores 3. GPA (includes 60-units GPA of bachelor degree and 7 pre-requisites GPA, both of which must be a minimum 3.0 to be eligible to apply).
