

ETHICS CENTER LECTURE

Andrew Jones

*Fallacies, Ethical Dilemmas,
&
Climate Change*

Wednesday October 14

7-8

Alice Peters Auditorium
University Business Center

Andrew Jones will discuss the flawed logic employed by skeptics who argue that climate change either isn't taking place or isn't human caused. Jones will critique some of the proposed solutions for mitigating the effects of global warming. He will also critically examine arguments that favor doing nothing about climate change or that advocate embracing global warming.

Andrew Jones is Assistant Professor of Sociology at Fresno State. He has a Ph.D. from the University of Oregon, where his dissertation was: *How the Media Frame Global Warming: A Harbinger of Human Extinction, or Endless Summer Fun?*

Sponsored by The Ethics Center at Fresno State
