

Commercial Insurance Policy Purchases

The University's Risk Management program is the sole entity responsible for coordinating and purchasing the various insurance policies and coverage's which are appropriate for the conduct of the University's business. Individual administrators, staff, and faculty not associated with the Risk Management office are not authorized to expand the university's coverage or purchase additional commercial insurance.

If your department has a special need which is not being met by the university's standard policies, we are ready to assist you in obtaining enhanced coverage or special commercial insurance policies. Please contact Steve Martinez at 278-7422 for additional information.

Your cooperation is appreciated and will help to avoid duplicate coverage, inappropriate policy purchases, or other administrative difficulties which could be detrimental to the university.

David M. Moll
Director of Environmental Health & Safety
